- Jingle Bells & Magnets
- Candy Cane Eruptions
- Sharing Tales of Pippi Longstocking
- Holding our Winter Toasty Toes Party

DINNER CHAT

"Gratitude is something of which none of us can give too much. For on the smiles, the thanks we give, our little gestures of appreciation, our neighbors build their philosophy of life." ~ A. J. Cronin

CLUB ACTIVITIES

- **Fear Factor Club**
 - Blind Food Tasting
 - Free Falling
 - Monster Brains Treasure Hunt
 - Worm Pie
 - Frog Egg Slurp-a-thon

DON'T FORGET

- ABC Care goes outside when the temperature is above 32 and the playground is clear—please dress appropriately!
- We will be creating nursing home crafts to send out, be creative and give back to your community. Please don't forget to thank a Veteran (Nov. 9th)

FROM THE OFFICE

Were you aware that the sign language we teach at ABC Care enables your child to become a bi-lingual individual faster than most children in the United States? Brain research now confirms what most of the European countries have known for years, learning a second language before the age of ten (10) enables the child to learn the new language **and any other languages at a faster rate!**

The brain learns the new language in the same section of the brain that they learned their native languages in **only when the second language is taught before the age of ten (10)**. After ten years of age when a second language is introduced to a child or adult they store it in a different part of their brain, hence, this makes recall twice as hard and takes twice as long to retain the new language.

In the "global world" we now live in every advantage in education you can provide to your children will benefit them now **and** in their future.

ABC Care is proud and happy to partner with you in giving your children many opportunities for knowledge and experience that enhance their lives daily!
